## SUMMARY

---

I'm a fourth-year student majoring in Computer Science at BINUS University. I have an interest in learning technology, especially software development. I am always eager to try new things and learn from them that will help me grow personally. Based on my experiences, I believe I'm capable of working as a team, and I proudly strive to contribute to the growth of a community while constantly developing my skills such as leadership, communication, team development, and problem-solving, all while honing my hard skills in the field I am passionate about, information technology.

## EDUCATION

---

### **BINUS University**

**2022 – 2026**

*Undergraduate Student of Computer Science*

Software Engineering Streaming Course

Cumulative GPA: 3.5/4.0

Relevant Coursework: Algorithm and Web Programming, Software Development, Human Computer Interaction (UI/UX Design), Artificial Intelligence, and Object-Oriented Programming.

### **Tarsisius Vireta School**

**2019 – 2022**

*High School Diploma*

Natural Sciences

Achieved 10<sup>th</sup> Parallel Ranking

## WORK EXPERIENCE

---

### **PT. Kualitas Teknologi Asia**

**2025 – Present**

*Backend Developer*

*Feb 2025 – Present*

- Managed and enhanced **5** active projects, handling feature development, maintenance, and bug resolution based on user requirements.
- Developed the company's official website, **QAS**, from scratch through collaboration with Design, Sales, and Marketing teams.
- Delivered solutions, improvements, and project enhancements with a consistent **100% rate and on-time completion**.
- Designed and maintained RESTful APIs using Spring Boot, implemented clean Java code, and wrote efficient SQL queries to support system performance.
- Conducted research on potential tools and technologies to enhance project efficiency and support long-term scalability.

## ORGANIZATIONAL EXPERIENCE

---

### **Keluarga Mahasiswa Katolik BINUS University**

**2023 – 2024**

*Regional President | Alam Sutera*

*Feb 2024 – Jan 2025*

- Responsible for leading and supervising more than 15 staffs, 50 activists and 1500 Catholic students at BINUS @Alam Sutera.
- Lead a dynamic community of Catholic students committed to fostering faith, service, and fellowship within the campus.

- Involves strategic planning, organizing spiritual and social activities, and mentoring team members to create an inclusive and supportive environment.
- Make effective choices for the future of the organization and monitor performance while being a mentor for members so that every event can run smoothly.

*Liturgical Division Activist*

*Mar 2023 – Jan 2024*

- Responsible for the liturgical needs of KMK BINUS.
- Help prepare everything needed for mass and help serve as a server when needed.

**HIMTI (Himpunan Mahasiswa Teknik Informatika) BINUS University**

**2023**

*HRD Division Activist*

*Jan 2023 – Dec 2023*

- Became a Human Resource Development (HRD) activist who has the responsibility of processing data on each HIMTI member and conducting interviews for new HIMTI members.
- collaborate with colleagues in the same division to record the KPI (Key Performance Indicator) of each HIMTI member.

## **PROJECT**

---

**QAS Company Website**

**June 2025 – Aug 2025**

*Fullstack Developer*

- Developed the QAS Company Website end-to-end as a fullstack developer, handling backend (Spring Boot) and frontend (HTML, CSS, AngularJS) development, integrating all features, and overseeing the full deployment process.
- Translates UI/UX designs into a responsive, user-friendly web system that showcases complete company information and delivers a seamless browsing experience across devices.
- Collaborated closely with the Design team and Sales & Marketing division to refine requirements, ensure alignment with business objectives, and carry out evaluation and user acceptance testing (UAT) until final approval.

**Weathrly**

**Sep 2024 – Jan 2025**

*Web Programmer*

- Contributed as the web programmer in a five-member team to build **Weathrly**, a Laravel-based platform that provides real-time weather reports and up-to-date disaster information.
- Developed core reporting features, including creating, editing, deleting, and displaying weather-related reports, ensuring smooth functionality and accurate data handling.
- Implemented a fully responsive interface to ensure seamless accessibility and consistent user experience across all devices.

## **SKILLS AND ABILITIES**

---

- **Hard Skills:** English, Indonesian, RESTful APIs, SQL, Java Spring Boot, IDE(JetBrains,VSCode, etc.), Programming Languages (PHP, HTML, CSS, JS, Java, etc.), UI/UX Design, Web Development, Software Engineering, and Media.
- **Soft Skills:** Community Development, Problem Solving, Mentoring, Delegate Management, Team Leadership, Decision-Making, Project Management, Creativity, Collaboration, and Innovation.
